Important Note:
All example programs have been created and tested with thegreatest possible care. They are intended as executable example programs for learning purposes. During use, testing to ensure correct function in the application environment must be undertaken. The national safety standards which may apply must be strictly observed.

By using this example program created by Moeller GmbH, you acknowledge that the liability of the Moeller GmbH – based on whatever legal reason – for damages caused by the use ot this program is excluded. This shall not apply in case of intent or gross negligence, a mandatory liability under the German Liability Act "Produkthaftungsgesetz" as well as in case of injury of life, body or health.

Legal relations existing in connection with the use of the program shall be governed by German substantive law.
