

Device	Name
A1	MFD-Titan
F1	Main-fuse
F2	fuse "control circuit"
F3	fuse "load circuit"
G1	Transformer
M1	Pump 1
M2	Pump 2
P1	Signal lamp "motor fault"
P2	Signal horn "flooding"
S1	Level switch 1
S2	Level switch 2
S3	Level switch 3
S4	Level switch 4
S5	Swichting contact "motor breaker 1"
S6	Swichting contact "motor breaker 2"
S7	Reset button "operating hours M1"
S8	Reset button "operating hours M2"

All example programs have been created and tested with the greatest possible care. They are intended as executable example programs for learning purposes. During use, testing to ensure correct function in the application environment must be undertaken. Thenational safety standards which may apply must be strictly observed.

By using this example program created by Moeller GmbH, you acknowledge that the liability of the Moeller GmbH – based on whatever legal reason- for damages caused by the use of the program is excluded. This shall not apply in case of intent or gross negligence, a mandatory liability under the German Liability Act ("Produkthaftungsgesetz") as well as in case of injury of life, body or health.

Legal relations existing in connection with thause of the program shall be governed by German substantive law.
